Parent & Family Engagement 1% Budget Input Analysis

October 30, 2019

Huie Elementary School is committed to sharing all information regarding Parent & Family Engagement for our school with our parents. As a parent of a child who receives Title I services in our school, they have the right to give input about how the school district budgets and how it spends its Title I Parent & Family Engagement money. This budget survey allowed parents the opportunity to know how the 1% budget is being spent and also gave them the right to give their input, on how they would like to see funds spent. Parents attended 1% budget input meetings and filled out input forms. We did not have many parents to attend therefore we sent the forms home with students and received 104 forms total, 98 of the parents stated they agreed with how we would like to spend the 1% budget for the 2019-2020 school year. There were 6 parents who did not agree with how we wanted to spend the funds for the 2019-2020 school year. Some parents requested more help for students by using the funds for tutoring if the parents cannot afford tutoring. Parents also stated they wanted more resources for the parent and family resource center. They also stated they wanted to ensure supplies were disbursed equally to all families. Few Parents indicated that funds should be spent on resources that are already currently available to them. Majority of parents indicated they did not have any further input on how the budget should be spent and that they feel as if the school is doing a wonderful job at providing materials for parents, teachers, and students.

Sincerely,

Roxanne Dixon,
Principal
